

SWEED MODEL 300 SCRAP CHOPPER

A Tough Light Duty Scrap Chopper

The SWEED Model 300 scrap chopper is an economical “housekeeping” unit perfect for facilities with lower volumes of scrap materials.

This unit is ideal for plastic and steel banding, and other lightweight scrap materials. The Model 300 is designed to fit on several SWEED stands that can accommodate a variety of scrap collection containers. Custom stands and additional safety upgrades are also available.

MATERIAL REFERENCE

The recommended model of scrap chopper is determined by scrap size, scrap volume, and requested custom features. The following are materials commonly processed through the Model 300. Please consult a FROMM representative to determine the appropriate scrap chopper for your application.

- » PET strapping (19 x 1.27 mm)
- » PP strapping (16 x 0.76 mm)
- » Standard grade steel strapping (19 x 0.8 mm)

For other materials, please consult FROMM

The Model300 is shown sitting on and over an optional basic stand and self-dumping hopper

CONSTRUCTION FEATURES

- » Easy to reach “Feedworks Release” hand lever
- » Infeed restrictor plate for operator protection
- » Knives have 4 usable edges and can be rotated (3 times) for extended life
- » Two year FROMM warranty
