

FROMM Conveyor System

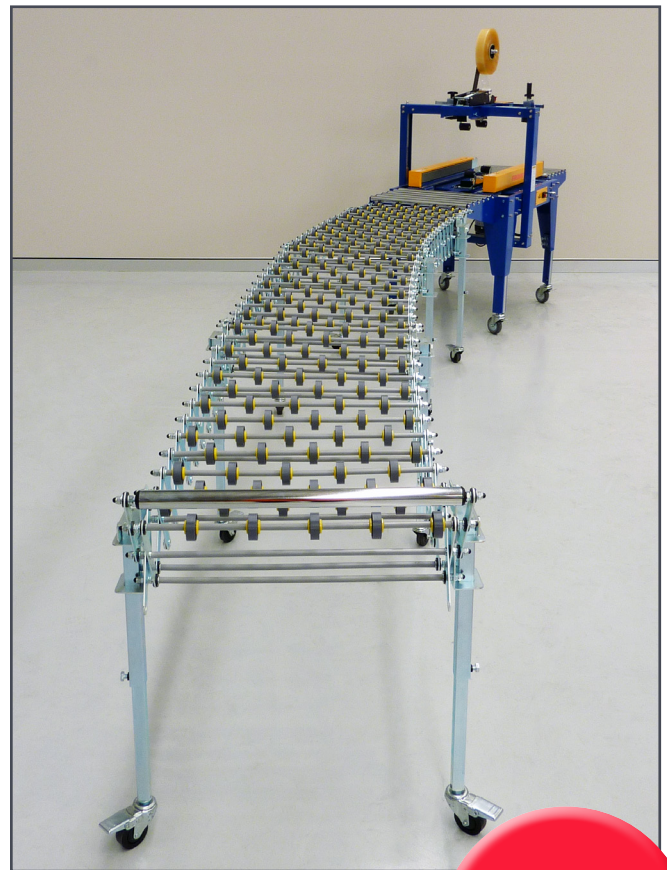

To get the most use out of any automatic packaging machine, we recommend using the FROMM FCS Conveyor System as an easy method to move product away from the packaging area once it is sealed.

This conveyor will work seamlessly with any FROMM box sealing machine, simply push your un-sealed box through the machine and it will roll to the desired location or the next machine.

For small packaging operations, the conveyor can be bent to make a horseshoe, further reducing manual labour.

Specifications

Width:	500mm
Length:	1500 - 4500mm
Height:	500 - 800mm

**FROMM**
ADVANTAGE

★ Features

- Gravity conveyor
- Extendable
